STREET ARCHES.

They are Assured for the K. of P. Grand Lodge Meeting.

COUNCIL APPROPRIATES \$500

For the Purpose and the Arches Will be Permanent, so as to be Used for Similar Gatherings—Kick Against the New Crematory—Wheeling Railway Ordinance's Passage Delayed—Mr. Miller's Patriotic Proposal Struck a Frost.

Street arches, which were desired primarily for the meeting of the K. of P. grand lodge, were decided on by the city council at a regular meeting last night, and in addition there was transacted considerable routine business in a one hour's session, which was enlivened by occasional amusing features.

Committee meetings prevented the first branch from getting a quorum until 8:30, and in the meantime Mr. Miller made two futile motions to adjourn the second branch.

City Clerk's Report.

City Clerk O'Brien submitted his report of the city's finances, showing the following:

Kick Against Crematory.

A number of citizens living above Tenth street objected to the new crematory, which they claimed was a nuisance, and a menace to public health. The objectors submitted a petition, asking council's interference. Dr. Jepson, city health officer, was present, and on Mr. Marschner's motion, he addressed the second branch. Dr. Jepson said it was better not to take radical steps at present, as the summer months were over, and in his opinion the crematory would be abandoned, since it was in the experimental stage, and the results hadn't been as successful as desired. The health officer believed the process might be offensive to the smell, but not a menace to the public health. However, he predicted the new plant's failure.

The matter was referred back to the committee on health, which is to meet shortly in conjunction with the health officer.

Repairing Streets.

The board of public works sent in a communication relative to the Wheeling Railway Company's alleged failure to keep up the paving of parts of certain streets. Among the places needing paving repairs noted were: Twenty-seventh and Chapline, Thirty-third and Chapline, Thirty-third and Scott, etc. The communication was referred to the city solicitor and the committee on streets, alleys and grades.

Street Arches Authorized.

Mr. Marschner offered a resolution providing for the erection of street arches, on the lines laid down in the recent effort to get arches for Merchants' Day.

Mr. Miller objected to the city putting them up for any special organization. He thought they should be purchased through private subscriptions, as in other cities.

The question of cost was then discussed, and an amendment that they not exceed \$500 was proposed. The gas board is to be reimbursed for the expense by the finance committee.

Mr. Miller advocated a fixed amount, and after asking whether the arches were to be permanent fixtures or for temporary uses, he moved to refer the resolution to the committee on lights.

A motion to adopt the resolution was previously offered by Mr. Maurer, and it carried unanimously. Mr. Miller not voting.

Wheeling Railway Ordinance.

The Wheeling Railway ordinance, granting the company an extension of its lines, by loops in the Eighth ward and on the upper end of the Island, came up in the first branch, and was referred back, that printed copies might be presented. The copy of the ordinance was taken from the second branch table to the first branch surreptitiously, claimed Mr. Marschner, when he expressed his surprise at it not being read in his branch.

To Honor Dewey.

Mr. Miller created a ripple of excitement by his advocacy of a resolution to send a committee from council to New York to represent the city of Wheeling in welcoming home Admiral George Dewey. Mr. Miller moved that a sum not to exceed \$500 be devoted to the expenses of said trip, and the same be taken from the contingent fund. Mr. Miller believed the committee should consist of five members from each branch. The chair asked him to put his resolution in writing, and he thereupon sat down at his desk, but in the midst of his penmanship came a motion to adjourn, which carried with

"THE ACADEMIE DE MEDECINE OF FRANCE HAS PLACED

Apollinaris
(THE QUEEN OF TABLE WATERS.)

At the Head of All the Waters Examined for Purity and Freedom from Disease Germs."

a will. Mr. Miller was correspondingly sad. It was an amusing fall of the curtain.

Miscellaneous Matters.

The purchase of a fire alarm box, to be placed at the McMechen canning factory, to cost \$125, was authorized, as was also the expenditure of \$1,450, if necessary, to buy a site on Fourteenth street for a hose house in that part of the city.

The appointments of John Donovan to fill the vacancy caused by Officer McCausland's resignation, and of Ed. Deahl as extramural, recommended by Chief Clemens, were approved.

Charles Scott was granted a liquor license at No. 119 Water street.

A resolution was adopted instructing the board of public works to grade a crossing on Market street, at Eighth street.

The executor of the will of Stephen McCullough asked for another deed of a lot transfer in the Peninsular cemetery. The original deed has been lost. The request was granted.

A bicycle lamp ordinance was referred to the ordinance committee.

Mr. Scheele offered a resolution making the hours of the day policemen from 9 a. m. to 9 p. m., Saturday's hours to remain as at present, referred to the police committee.

East End Hose House.

The long desired East End hose house is now assured beyond question, the site having been purchased by Messrs. Beckett, Baird and Meyers, of the council fire committee. They selected the John McGannon property, on McCulloch street, between Twelfth and Eleventh streets. The price was \$1,450. A twelve-foot alley space was reserved. The location is considered excellent, and the price satisfactory to the city. Work on the new house will begin in a few days. The lot is 30 by 60 feet.

BRIEF MENTIONINGS.

Events in and About the City Given in a Nutshell.

The pay roll of the board of public works employees to-morrow amounts to \$4,000.

Work will begin to-day on the special stage at Mozart Park, necessary for the production of Conterno's spectacular affair, the "Battles of Our Nation."

Howard Hazlett & Son received the following telegram from New York last evening: "Almost ten thousand shares of National Tube common sold to-day between 40 1/2 and 41 1/2. For the preferred stock 100 1/2 was freely bid."

The meeting of the Wheeling presbytery of the United Presbyterian church was held yesterday at Bellaire. Rev. C. P. Proudfoot, of Bellaire, and Rev. A. R. Robinson, of Martin's Ferry, delivered their trial sermons and were accepted. The installation sermon was preached by Rev. T. P. Proudfoot, of Washington, Pa., father of the Bellaire minister, and the charge to the people was delivered by Rev. J. H. Littell, of Wheeling. Rev. Mr. Coleman, of West Alexander, delivered the charge to the pastor. Last evening at Martin's Ferry occurred the installation of Rev. Mr. Robinson.

FOOD ECONOMY

Bulk vs. Concentration. Grape-Nuts.
Discussed Below.

The question of obtaining a high grade food at a moderate price is of interest to every housekeeper and provider.

Some food is so bulky that even at a very low price per pound, the actual food value is so little that it is really expensive; on the other hand, there are concentrated foods, like, for instance, the famous breakfast food known as "Grape-Nuts," that sell at 15 cents per pound, but yield in food units so much value that but little of the food should be used at a time, and in reality, when properly used, the expense is about one cent per meal.

It is a common mistake to use too much of the food Grape-Nuts. Its taste is crisp, with the delicate sweet flavor of grape sugar, and one is inclined to eat double the proper quantity. A lady writes from Indianapolis, Mrs. A. L. Wilson: "We have been using your Grape-Nuts now for two or three weeks. I cannot tell you how much I find it has benefited me. My husband is a physician, and he not only uses it at each meal, but likes it at bedtime."

Using the food in this way, some families might be impressed with the cost, but after all, good food, which keeps the family in prime condition of health, at a moderate cost, is very much more profitable, so far as dollars and cents are concerned, than to make use of low-grade, bulky foods and from time to time call in a physician to help out.

The use of "Grape-Nuts" in reasonable quantity costs one cent per meal, and the food stands without an equal in point of nutrition and value in building up the nerve centers and tissue of the body. The crisp, delicate, sweet taste comes from the grape sugar which is produced by transformation of the starch of the cereals, and this grape sugar is presented to the system, ready for immediate assimilation. Grape-Nuts are sold by all first-class grocers and made by the Postum Co. at their factories in Battle Creek, Michigan.
